Auditors' Report

To the Directors of the
**Students' Society of McGill University /
Association étudiante de l'Université McGill**

We have audited the balance sheet of Students' Society of McGill University /Association étudiante de l'Université McGill as at May 31, 2009 and the statements of operations and changes in fund balances and cash flows for the year then ended. These financial statements are the responsibility of the Society's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Society's management, as well as evaluating the overall financial statements presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Society as at May 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Students' Society of McGill University / Association étudiante de l'Université McGill

Notes to Financial Statements
Year ended May 31, 2009

1. Purpose of the organization

The Students' Society of McGill University ("SSMU") incorporated the Student Center of McGill University on August 19, 1992 under Part III of the *Companies Act* (Québec). On June 1, 2007, the Student Center of McGill University/Centre étudiant de l'Université McGill merged with Students' Society of McGill university/Association étudiante de l'Université McGill. As a result, the Organization was renamed Students' Society of McGill university/Association étudiante de l'Université McGill.

The Students' Society is a not-for-profit organization dedicated to providing various services to McGill students.

2. Significant accounting policies

Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Fund accounting

The Society follows the restricted fund method of accounting for contributions.

The Operating Fund records unrestricted resources which are available for the general operations of the Society. This fund also records restricted resources for activities for which no restricted fund has been established.

The Capital Expenditures Reserve Fund was established in 1985 for the purpose of defraying and recording the cost of certain significant capital expenditures. The capital of this fund is derived from transfers made from the Operating Fund as deemed necessary to ensure the maintenance of an appropriate capital asset base.

The Awards of Distinction Reserve Fund was established in 1990 for the purpose of generating revenue to provide for the Society's awards of distinction.

The Renovation Portion of the McGill Student Fund was established, on March 17, 2003 by referendum question, to record sources of funds and expenditures related to specific capital projects. The students agreed to make an additional contribution of \$11.84 per semester, per student, until autumn 2009 for the renovations of the Shatner building.

Students' Society of McGill University / Association étudiante de l'Université McGill

**Notes to Financial Statements
Year ended May 31, 2009**

3. Significant accounting policies (cont'd)

Fund accounting (cont'd)

The Queer McGill Undergraduate Fund was established in 2007 as a means to provide students affected by discrimination against queer or trans minorities with assistance to continue their studies. At the end of every fiscal year, any surplus in the Queer McGill department shall be transferred into the Queer McGill Undergraduate Fund.

The Health and Dental Plan Reserve Fund was established in 2007 to ensure steady health care costs for students. The surplus from the SSMU Health and Dental plan fees at the end of the fiscal year must be transferred into this fund.

Revenue recognition

Unrestricted contributions are recognized as revenue of Operating Fund in the year received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Restricted contributions related to general operations are recognized as revenue of the Operating Fund in the year in which the related expenses are incurred. All other restricted contributions are recognized as revenue of the appropriate restricted fund.

Investment income earned on resources that must be spent on restricted activities is recognized as revenue of the appropriate restricted fund.

Student fees are collected from students by McGill University and are remitted to the Society. To the extent fees relate to programs and activities administrated by the Society, they are recorded as revenue by the Society. When the fees relate to activities to be administrated by other entities, they are recorded as liabilities by the Society until such time as these funds are paid to the other entities. Activities for which the Society holds such funds include the library improvements, awards and bursaries.

Inventories

Inventories are valued at the lower of cost and net realizable value. Net realizable value is the estimated sales price in ordinary course of business after allowing for all further estimated costs of completion and disposal. Cost is determined using the first in, first out method.

Students' Society of McGill University / Association étudiante de l'Université McGill

Notes to Financial Statements
Year ended May 31, 2009

3. Significant accounting policies (cont'd)

Capital assets

Capital assets are recorded at cost less accumulated amortization. Amortization is calculated based on the estimated useful life of the assets and computed on a straight-line basis using the following annual rates:

	Rates
Building improvements	10%
Equipment	20%
Furniture and fixtures	20%
Computer equipment	20%
Computer software	50%

Financial instruments

The following policies and assumptions were used to determine the fair value of each class of financial assets and financial liabilities.

Cash, accounts receivable, accounts payable and funds held for others

These financial assets and liabilities are measured at their carrying amount since it is comparable to their fair value due to the approaching maturity of these financial instruments.

Investments

Investments are classified as financial assets available for sale. They are measured at fair value, determined on the basis of market value.

Contributed Facilities

The Organization obtains building electricity and heat free of charge from a contributor. The fair value of these services for the year, which was estimated at \$523,871, has been recognized both as a subsidy and as an expense in the statement of operations. If these services were unavailable on this basis, the Organization would have had to pay for these services.

Students' Society of McGill University / Association étudiante de l'Université McGill

Notes to Financial Statements
Year ended May 31, 2009

6. Bank Loan

The Society has an authorized line of credit of \$50,000 bearing interest at prime rate plus 1.5%, seconded by a movable hypothec on all present and future property. The bank loan is renewable annually.

7. Long-term debt

	2009	2008
Operating Fund		
Funds held for library improvements payable by annual contributions of \$75,000 until September 2010	\$ 103,832	\$ 178,832
Current portion	75,000	75,000
	\$ 28,832	\$ 103,832

Long-term debt principal repayments over the next two years are the following:

2010	\$ 75,000
2011	28,832
	\$ 103,832

8. Externally restricted assets

	2009	2008
Endowments, the income from which must be used for grants awarded	\$ 283,507	\$ 268,742

In 1991, the SSMU established an endowed scholarship fund for an initial amount of \$100,000.

9. Interfund transfers and internally restricted net assets

The excess (deficiency) of revenue over expenses generated in the Operating Fund is transferred to (from) the Capital Expenditures Reserve Fund on an annual basis. However in July 2007, the Society decided that any surplus over the budgeted surplus of the Operating Fund will be transferred into the Awards of Distinction Reserve Fund at the end of the year until further notice.

The internally restricted funds of \$3,085,249 in the Capital Expenditures Reserve Fund are to be used for capital expenditures purposes.

An amount of \$2,385 in the internally restricted funds of the Awards of Distinction Reserve Fund is to be used for awards granted.

Students' Society of McGill University / Association étudiante de l'Université McGill

Notes to Financial Statements
Year ended May 31, 2009

9. Interfund transfers and internally restricted net assets (cont'd)

The internally restricted funds of Queer McGill Undergraduate Fund are to be used in helping students against discrimination.

The internally restricted funds for Heath and Dental Plan are to be used against future increase in premiums to be paid by the students.

10. Commitment

The Society is committed under lease agreements ranging from one to two years. Those leases requirements, including the rental requirement for the next two years are as follows:

2010	\$ 108,386
2011	102,759
<hr/>	
	\$ 211,145

11. Financial instruments

Credit risk

The Society is exposed to credit risk from customers. This risk is alleviated by minimizing the amount of exposure the Society has to one customer, thereby ensuring a diversified customer mix.

Financial instruments

The Organization's financial assets and financial liabilities are held for trading.

The carrying amount of cash term deposits, accounts receivable, accounts payable and funds is a reasonable approximation of their fair value given their short-term maturity.

Investments are evaluated at fair market value. The Society manages its investment portfolio according to its cash needs and in such a way as to maximize investment income. Moreover, the Society has an investment policy statement supervised by an investment portfolio committee.

**Students' Society of McGill University /
Association étudiante de l'Université McGill**

**Notes to Financial Statements
Year ended May 31, 2009**

12. Financial instruments (cont'd)

Interest rate risk

The effective interest rate on the temporary investments during the year varied from 4.3% to 7.5%. The average interest rate at the end of the year was 5.18% with investments maturing from between 1 month to 15 years.

13. Comparative figures

Certain reclassification of 2008 amounts has been made to facilitate comparison with the current year.
