

Report of the Vice President Internal to Council January 7th 2010

For Information

Events

Hot Chocolate

This went incredible well. Students were really grateful. We had a huge turnout. The logistics of carrying giant containers of hot chocolate up and down hills on campus were tricky but all-in-all I was very happy with it. I think outreach events like this are really positive.

Holiday Fair

I imagine Sebastian will discuss this in his report as well but it was a great success. We did end up closing a little early because it was cold and the crowd had thinned, but we got a great turnout (more than I was expecting). This was a big hit and I would like to have a brainstorm for more similar events with the community at the end of the year.

Week 101

This is happening now, I will report orally.

Communications

Listserv

We are now doing a hyperlinked listserv so that you read titles and click links to what interests you and those go to the website posting of that event or job, etc. We have gotten positive responses and it has increased website traffic. I welcome feedback from any of you on the new format.

Internal

GA

I think Ivan is discussing this too but we are beginning planning and mapping out tasks and dates. Please let me know if you are interested in specific tasks, otherwise we will assign you general council duties.

Orientation/Frosh

I have been meeting with Leslie, Jana, and Anurag (from the FYO and student services) to debrief on the orientation program and we went over a lot of things. We are trying to work with the faculties to cover a lot of the issues and make frosh and orientation as best as they can be. There will be more regular meetings in the new year. If anyone is interested in more details please let me know and we can discuss.

Respectfully Submitted,
Alex(andra) Brown
